Image Guided and Adaptive Radiotherapy in Clinical Practice Course 2020

Startdatum:

donderdag 27 februari 2020 9:15

Einddatum:

zaterdag 29 februari 2020 17:00

Locatie:

The Education and Conference Centre, The Royal Marsden NHS Foundation Trust, London, UK

This three day course is designed to help clinicians, physicists and radiographers develop and maintain for the clinical implementation of image guided radiotherapy.

The course has been awarded 19 RCR Category I CPD credits under The Royal College of Radiologists CPD scheme. In 2017 it received 20 CPD credit-points from (EFOMP) The European Federation of Organisations for Medical Physics. The curriculum covers many practical aspects and includes hands-on practical sessions, image matching, QA and dosimetry.

We recommend a team of oncologist, physicist and radiographer from the same centre attend together.

Included in the cost of the course are a set of lecture notes, an online link to the presentations, lunches, refreshments, cheese and wine, and a course dinner.
