Cardiac PET/CT workshop

Startdatum:

donderdag 26 september 2024 9:00

Einddatum:

vrijdag 27 september 2024 17:00

Locatie:

Alkmaar

The aim of the Cardiac PET/CT workshop is to advance knowledge in cardiac PET and to gain experience in image processing, interpretation and reporting of cardiac PET studies with a focus on myocardial perfusion imaging with $^{13}\text{N-NH}_3$. The workshop is directed towards nuclear medicine physicians, cardiologists, radiologists, medical physicists and trainees.

This workshop contains a balanced series of lectures delivered by excellent speakers, and there is ample opportunity for acquiring practical skills during the hands-on sessions. At least fifty training data sets will be reviewed. This workshop will benefit both the implementation and assessment of myocardial perfusion PET/CT's in your own institution.
